

# VIETA PRO

## Bone Dual Plus

The Vieta Pro Bone Dual Plus takes bone-conduction technology to the next level, combining freedom, durability, and versatility in one device. Its open, non-isolating design keeps you aware of your surroundings while enjoying music anywhere—from the gym to the pool.

With an IPX8 waterproof rating, it can be used even while swimming. It also features built-in memory, allowing MP3 playback without a phone—perfect for water training or moments when you want to disconnect without giving up music.

The Bone Dual Plus retains all the strengths of the original model: advanced bone conduction, a memory neckband for a secure and comfortable fit, Bluetooth 6.0 for a fast and stable connection, dual pairing, and up to 10 hours of battery life. Its foldable design (up to 35°) lets you place it on the ear to boost volume when needed.

Designed for athletes and active users, the Bone Dual Plus is built to move without limits.
