

VIETA PRO

Goody 4

The Goody 4 portable speaker stands out for its powerful performance and advanced connectivity. With Bluetooth 5.3, it provides a stable and high-quality wireless connection to stream music from compatible devices. Its 30 W output delivers clear and dynamic sound, impressive for its medium-sized design.

Thanks to its IPX7 water resistance, the Goody 4 is perfect for outdoor use or humid environments. The integrated RGB LED lights add colorful lighting effects for a more immersive visual experience. With up to 13 hours of battery life, you can enjoy continuous music all day long.

It also features wireless stereo connection for up to 99 units, allowing you to connect multiple speakers at the same time and create a much bigger sound system for large parties. Additional features include a USB player, USB-C fast charging, Aux-In input, and power bank function to charge other devices. The dual connection mode lets you stay connected to two devices simultaneously, making it easy to switch between audio sources.
