USER'S MANUAL

This product has been designed and developed under the professional standards of **VIETA PRO**, which was founded by the Brothers in 1954. Since then, Vieta has accumulated more than 60 years of history under the motto "The Avocation and Respect for Art of Music ", which has motivated all his projects, thus achieving a privileged and a privileged place in the electronics market based on constant effort and generous doses of passion.

The **VIETA PRO** models are based on the benefits of professional sound, where the standards of quality, durability, and sonority are above the commercial products of consumer electronics. Developed by the prestigious engineer "Jordi Hernández", with more than 40 years of experience in the electronics field and who has been designated as "expert hearing of vieta" since 2002. These models have been built with the most precise components for the purpose of being able to offer and develop the purity and uniqueness that characterizes the Vieta Pro sound.

9. TF port

Bluetooth mode

- Press and hold the ON / OFF button for 3 seconds to start device operation.
- When The red and blue LEDs flashes, it means that the headset is ready to pair with a Bluetooth device.
- Make sure that your device's Bluetooth is turned on. Next look for the device code. When your mobile device finds the device, confirm the connection by selecting the device in the list below.
- Once the association of both devices is complete, the blue light will blink slowly.
- After the headphones are paired, they will be ready to be used.

MP3 Mode

- Press and hold the ON / OFF button for 3 seconds to start device operation.
- Insert your Micro SD card into the Micro SD slot and then the unit will begin to read it.
- Alternatively, you can also briefly press the "Mode" button until the MP3 mode is set.
- Control playback using the controls located on the headphones.

FM Mode

- Press and hold the ON / OFF button for 3 seconds to turn on the headset.
- Press the "Mode" button until the FM mode is activated.
- When in FM mode, press and hold the "Mode" button for 3 seconds to start the automatic search for radio frequencies. Press the "Next / Volume +" button to go to the next station and continue the search or, the "Back / Volume-" button to return to the previous station.
- To control the volume, use the headphone controls by pressing the "Next / Volume +" or "Back / Volume -" button.

Auxiliary cable input mode

It is not necessary to activate the headset to operate this mode.

- Insert the auxiliary audio cable that has been supplied directly into the "audio slot" of the headphones and the other end of the audio cable, into the output line located on the playback device.
- You may not be able to control the volume of the device using the controls on your headset, otherwise you will have to use your mobile device for these purposes.

"Hands-free" mode

- To answer a call, press the answer key on the phone or the "Answer" button directly on the headset.
- To hang up, press the end key on the phone or press the "hang up" button on the handset twice.
- To call the last dialed number again, double click on the call button. The call will start and music playback will be paused immediately.

Charge the device

- Before using the headphones for the first time, make sure that the battery is fully charged.
- Connect the supplied USB charging cable to the headset charging slot.
- Connect the other end of the USB charger to a 5V USB wall charger or directly to the USB port located on a computer.
- The LED indicator will show a red light when charging the headphones.
- As soon as the device is fully charged, the red LED will turn off automatically.
