

Dear Customer,
Thank you for purchasing the external speaker **Life** VAC555. To ensure a proper operation, it is recommended to read this manual carefully before start using this product.

This product has been designed and developed under the professional standards of VIETA PRO, which was founded by the Brothers in 1954. Since then, Vieta has accumulated more than 60 years of history under the motto "The avocation and Respect for Art of Music", which has motivated all his projects, thus achieving a privileged place in the electronics market based on constant effort and generous doses of passion.

The VIETA PRO models are based on the benefits of professional sound, where the standards of quality, durability, and sound are above the commercial products of consumer electronics. Developed by the prestigious engineer "Jordi Hernández", with more than 40 years of experience in the sector and who has been designated as "expert hearing of vieta" since 2002. Models that have been built with the most precise components for the purpose to be able to offer and develop the purity and uniqueness that characterizes the Vieta Pro sound.

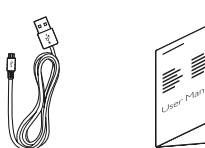

IMPORTANT SAFETY INSTRUCTIONS

- Keep the speaker away from sources of heat.
- Be careful when charging the speaker. Excessive and prolonged charging can damage the life of the battery.
- When the battery is discharged, the indicator light flashes and the voice message of "discharged battery" sounds. In this case, proceed to charge the battery.
- If you do not use this device frequently, we recommend charging it at least once a month to avoid damaging the lithium battery due to excessive discharge.
- Adjust the volume to avoid discomforting others.

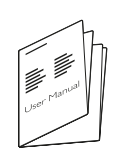

1 Inside the package you will find:

Loudspeaker

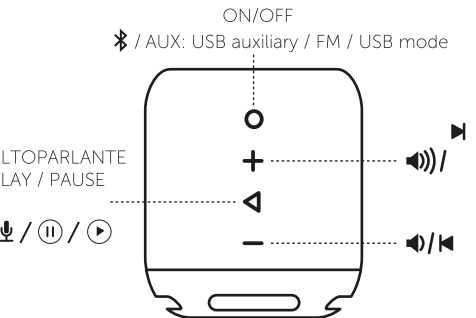

Micro USB Cable

User's manual

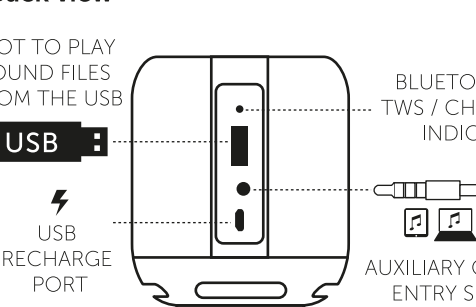

2 INTRODUCTION

Front / front view

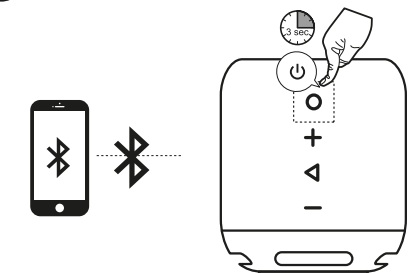

- A. Press hard "VOL+" or "VOL-" to increase or decrease the volume.
- B. Press briefly +/- to go to the next / previous track.
- C. Press a little +/- to go to the next / previous track.

Back view

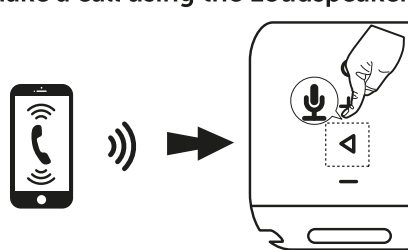

3 BLUETOOTH PAIRING PROCESS

- A. Press the "O" button for 3 seconds to turn on the speaker.
- B. Briefly press the "O" key to switch to **Bluetooth mode**.
- C. Activate the Bluetooth function on your mobile phone or other device.
- D. Select "**VAC555**" to match both devices.
- E. Once connected, the speaker will emit the phrase "Paired device" and the LED will then flash blue.

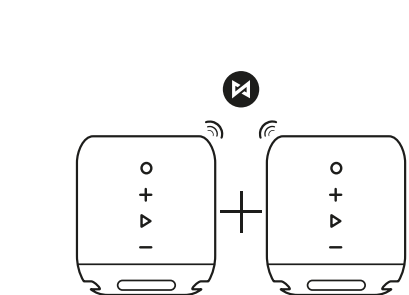

Make a call using the Loudspeaker

The button works in bluetooth mode.

State	
Incoming call	Press to answer an incoming call.
During a call	Press to end a call in progress

4 TWS (TRUE WIRELESS STEREO)

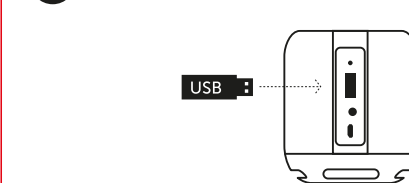

- A. Turn on both devices including the **VAC555**, switch the two speakers to Bluetooth mode waiting for pairing.
- B. Keep the play button pressed on the speaker. This speaker will be paired automatically with the other speaker. The speaker will indicate "**coincident TWS**" during the association.
- C. Use your mobile phone to find a Bluetooth device and choose VAC555 to link it. The speaker will sound "**Associated device**".
- D. Two speakers can play the same music at the same time.
- E. To disconnect the TWS, press and hold any key on the speaker for 3 seconds.
- F. To cancel the TWS, briefly press the speaker button twice.

Take into account:

- 1) To use this function, two speaker functions VAC555 are required.
- 2) Before pairing, the two speakers must not be previously connected to any other device. The two LEDs should blink blue.

5 USB MUSIC PLAY MODE

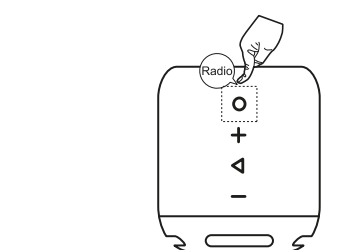

- A. Briefly press the "O" key to enter the "**USB MODE**" mode.
- B. The music is then played from your USB flash drive (you must first insert a USB key, and then you can play the USB mode).

Take into account:

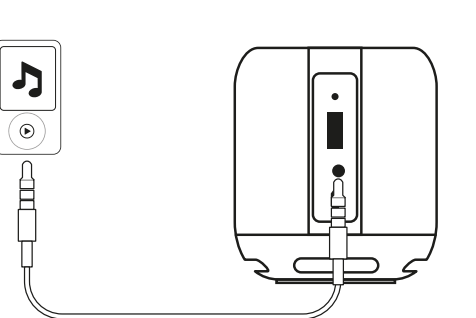

The speaker supports the USB music format in mp3 / wma / mav / ape / flac format.

6 FM RADIO PLAYBACK MODE

- A. Briefly press the "O" key to change to "**FM MODE**".
- B. For the first time, press and hold the play button to scan the FM channels automatically. This will save the FM channels.
- C. Briefly press the +/- button to listen to the next or previous FM station.
- D. Frequency FM 87.5 MHz-108 MHz.

7 PLAYBACK MODE WITH AUXILIARY CABLE

- A. When you connect the auxiliary 3.5 mm speaker cable to another audio playback device, the "AUX IN" function will automatically be activated.
- B. The headset will emit an "**AUX IN MODE**" sound signal to indicate that the auxiliary mode has been activated and then the audio files will start playing.
