Thank you for purchasing the **Way 2** earphones VHP-BT299.
To ensure correct operation, please read this manual carefully before use.

USER MANUAL

This product has been developed under the **VIETA PRO** quality standards. For over 60 years, since its foundation in 1954 by the Vieta brothers, Vieta has always been guided by the motto "Love and respect for the art of music". It has thus achieved a privileged position in the electronics market, with constant effort and generous doses of passion.

The **VIETA PRO** models are based on professional sound standards, where quality, durability and sound are above those in commercial products of consumer electronics. They have been developed by the prestigious engineer "Jordi Hernandez", with more than 40 years in the sound industry. Under his expert direction, the **VIETA PRO** models are manufactured with the most precise components, producing the purest **VIETA PRO** sound.

Bluetooth earphones should be used with compatible devices which supports Bluetooth wireless technology. This will allow you to make calls and enjoy music freely at any time.

Make sure that your equipment has an updated Bluetooth 5.0 protocol to correct communication with new earphone technologies and to be able to be used.

Please read this user manual carefully before using the product as your smartphone's manual regarding the use and activation of the Bluetooth function.

Pay attention to the device safety and maintenance recommendations and for safety reasons, keep the product out of the reach of children. Keep it in a safe place for future reference.

Safety Information

- a. There are voltage zones inside this unit that can cause injuries. Please do not open the unit. In case of technical failure, please contact the authorized service center.
- b. Never place the unit in the rain or in moist zones so as to avoid a fire or an electric shock.
- c. If technical maintenance is required, please contact the authorized service center.

Caution

- a. Do not place the unit on an unstable surface as it may fall and break or cause damage to people or pets.
- b. Disconnect the unit from the mains before cleaning it. Do not use cleaning liquids or sprays. Use only a soft, damp cloth.
- c. To avoid possible damage to the equipment, please unplug it during storms or when it will not be used for a long time.
- d. Do not insert any object into the unit through the loading ports as this could cause a short circuit and start a fire. Do not pour liquid on the earphone.

Power On and charging

Fully charge the built-in battery before using for the first time, which will prolong the battery lifespan.

1. Connect your Smartphone's 5V power adapter to the earphones is charging connector using the micro-USB cable (included in the package).

You can also charge through your computer's USB port (charge process will be slower).

2. Check that the earphones are charging; the Red LED indicator located on the charging cable connector is activated.

If the earphones are completely empty of battery, it takes 3 to 5 minutes for this LED to enter the charging state.

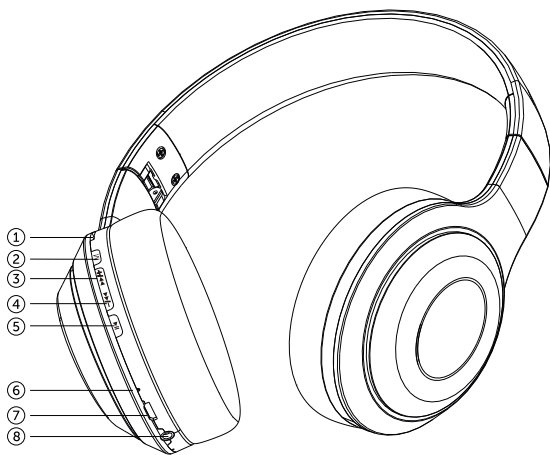

3. A full charge will take around 3 – 4 hours. When it reaches 100% battery, you can unplug the micro-USB cable. Now, the device is fully charged and the Red LED will be in off.

When the battery of the earphones is below 10% battery, the voice prompt will inform "Battery Low" and you should put them to charge it again. Then, connect 5V power and repeat the process described.

Bluetooth Mode

1. Power ON the earphones (long press 4 seconds the Play/Pause button) [button n. 5].
2. Press the M button [button n. 2] (short press) until you hear "Bluetooth Mode".

Bluetooth mode is the default mode selected when you turn on the earphones.

3. On the media device (Smartphone/Computer/Tablet) you need to find the Vieta Pro **Way 2** device and select to pair (accept pairing on your media device permissions).

This procedure is necessary only the first time you connect to the same device. After, if saved the Bluetooth settings on the smartphone, when turn on the Bluetooth in the smartphone, they will connect automatically. It will pair successfully within 3 seconds with an indication sound to show it connected.

If want to use the earphones on another smartphone or media device (computer, tablet, laptop...) must first unlink the connection they have established.

FM Radio Mode

1. Power ON the earphones (long press 4 seconds the Play/Pause button) [button n. 5].
2. Press the M button [button n. 2] (short press) until you hear "FM Radio Mode".
3. Long press the M button for 2 seconds [button n.2] to start the auto-tuner which will search the channels with the best quality reception to store in the channel list.
4. Select the channel that you want to listen through the Next [button n.3] and Previous [button n.4] buttons.

Memory Card (TF Card) Mode

1. Store your music on a TF Card (microSD) (following the formats described).
2. Power ON the earphones (long press 4 seconds the Play/Pause button) [button n. 5].
3. Plug-in the TF Card.
4. You can use the buttons to select Next/Previous song, Play/Pause and Increase/Decrease Volume, using the correct buttons listed above.

If the TF Card (microSD) with your media was connected when the earphones are turned on, it will start to reproduce this media from this source. If you want to select another mode, press the M button [button n.2] to change between modes (it's recommended that you extract the TF Card from the earphones if you don't use it).

Line In Mode

1. Connect the Aux In. cable Jack 3.5mm (included in the package) to the earphones.
 2. Connect the other end of the cable to your media player device (Smartphone/Tablet/Computer).
 3. The earphones will go directly to Line In mode. Don't need to power ON (this mode works powering off the earphones) because don't need to use this battery.
 4. If you want to change modes, you should first disconnect the Aux. In. Jack 3.5mm cable, and turn on the earphones (as indicated in the previous modes) and select, the mode that you want to use.
- Using this mode, you cannot use the functions of the buttons on the earphones, because working in passive mode, you can't use its electronics and functions.

IMPORTANT

1. Bluetooth pairing named Vieta Pro **Way 2**.
2. Connect the mobile phone automatically after earphones power on. If connection cannot be made automatically, disable and enable Bluetooth on media device to find them and pair it. Also, can try inserting and removing the earphones from the charging box to reset them.
3. Please use a 5V charger with micro-USB cable included in the pack (Smartphone or Tablet charger, or Computer USB port).
